EEG Neurofeedback Technician Job description

About us

The Sinha Clinic's mission is to provide quality treatment through a caring and holistic perspective while offering comprehensive treatment tailored to those looking to improve their mental health. The Sinha Clinic has been in practice since 2002 located in St. Charles, Illinois and includes treating those looking to improve their mental health concerns in surrounding suburbs. We offer neuropsychiatry, medication management, telework for medication management, counseling, medication sensitivity testing, qEEG brain mapping and neurofeedback.

EEG Neurofeedback Technician Job Description and Responsibilities:

Schedule potentially **Monday to Thursday, 2 pm to 7pm and every other Saturday 9 am to 2 pm.**

- Experienced EEG technician, bonus for ABRET certified technician or working on EEG certification
- Experienced with 10-20 placement set up and recording equipment
- Excellent computer skills. Must be able to troubleshoot problems as needed.
- Consistent, organized, and a self-starter with excellent communication skills.
- Detail-oriented with patient care and documentation.
- Office is located in St. Charles, IL

We are looking for an experienced EEG technician to record qEEG brain maps and provide neurofeedback services to thriving neuropsychiatry practice in Saint Charles, Illinois.

Added bonus for those applicants as an ABRET certified EEG technician. Must be experienced in 10-20 electrode placement and setting up for EEG placements. The position is part-time, Monday to Thursday afternoons from 2pm to 7pm with a potentially flexible schedule around those hours.

We are looking for this technician to work 9 am to 2 pm every other Saturday and can back up the current technician if needed. Telework is not optional.

Needs to be comfortable working with all age groups and familiar with mental health neuropsychological symptoms, concerns, disorders. We are able to train the right candidate who lacks experience within the neurofeedback field. We work with a wide variety of patients seeking collaborative mental health services by counseling and neurofeedback therapy. We need a motivated individual who is adept at maintaining accurate patient records.

Job Type: Part-time

Pay: \$20.00 - \$32.00 per hour

COVID-19 considerations:

We are considered essential medical practice and follow the CDCs guidelines for sanitizing the workplace environment.

Please submit completed resumes (Subject: Application for EEG Tech) to jskeens@sinhaclinic.com.
